

The Monthly Statistical Report on the Dignity Revolution's Martyrs

Violation Documentation Center in Syria

June 2014

VDC

مركز توثيق الانتهاكات في سوريا

Violations Documentation Center in Syria

Gratitude and Indication:

As the Syrian Revolution enters its 39th month and enters its fourth year, martyrs of civilians, defected soldiers, and enrollees in the FSA, are still falling on a daily basis. That coincided with a remarkable escalation on part of the regime forces using the fiercest and deadliest types of weapons including internationally banned weapons such as [chemical weapons](#), poisonous gases and [incendiary missiles](#), in addition to resorting to a policy of systematic shelling of cities and specific areas, drawing on the support of external forces whose direct involvement in fighting alongside the regime forces has been recently proven, in an attempt to change the demographic features of those cities and regions.

Moreover, the regime has been following a systematic policy of [besieging](#) and preventing the entry of food to many of the [areas](#) that are not controlled by the military forces of the regime.

VDC which has been working since the beginning of the revolution on monitoring and documenting all violations and crimes by the regime presents its report about Dignity Revolution martyrs of June 2014 covering the period from 1st till 30th June 2014.

Pointing out the following:

1. Regime's fatalities are not included in the reported death toll.
2. These figures are not final in any way, and they are subject to continuous and periodic scrutiny by center's activists and the field documentation team
3. Figures may differ between reports even within the same district, and this can be referred to the territorial audit that would reveals places of errors and faults, as well as the continuous follow up to identify undistinguished martyrs whenever they are identified.

Center for Documentation of Violations in Syria deeply thanks all field activists who are doing a tremendous job in order to document the martyrs and complete their data, and thanks all our readers that collaborated with the center, in addition to the families of the victims who showed peerless response with ([Watheq\Document it Campaign](#)) - which has been started in a number of Syrian governorates and regions- by providing us with some data, and correcting another.

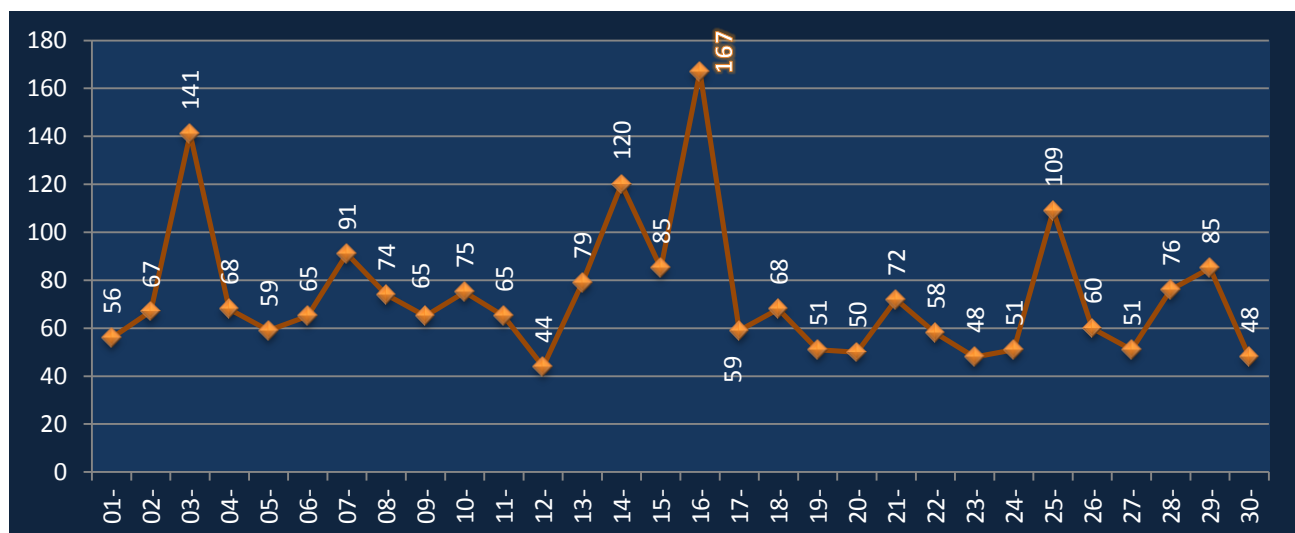

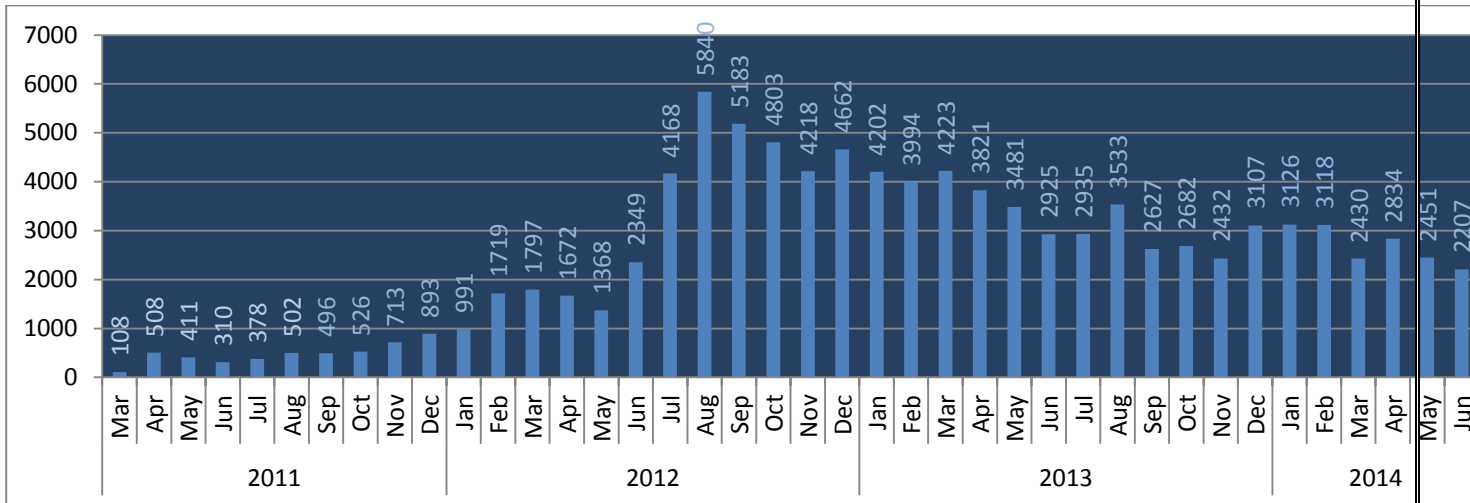

Martyrs of the Revolution

VDC has documented, since the beginning of the revolution in March **2011** till the end of June 2014 (**99,908**) martyrs, (**2,207**) of which died in June 2014.
