

## The Monthly Statistical Report on Dignity Revolution's Martyrs

Violations Documentation Center in Syria

November 2014

## Introduction and Citation:

This [report includes](#) the number of victims who fell during November 2014. In Syria, claiming the lives of thousands, mainly civilian women and children, goes on using all kinds of weapons and targeting the various civilian neighborhoods. Accordingly, mass [displacement movements](#) took place, especially from the neighborhoods that are indiscriminately targeted by [barrel bombs](#). However, in 23 September 2014, when the USA and its allies represented by the so-called [National Coalition](#) started a military operation that targeted headquarters of ISIS and other organizations including al-Nusra Front in Syria, the Syrian crisis entered a new phase.

### **The following points should be taken into consideration before reading the report:**

1. Fatalities of the regime, the Army of National Defense (Shabiha), Lebanese Hizbullah, Iraqi and Iranian Militias are not included in the reported death toll. The report only includes the victims at the hands of the regime in addition to a special list of the victims who fell by the fires of either the Islamic State in Iraq and Sham (ISIS) or the coalition forces' against ISIS if there is any. It doesn't include numbers of victims at the hands of other fighting brigades.
2. These figures are not final in any way, and they are subject to continuous and periodic scrutiny by center's activists, the data base administrators and the field documentation team.
3. Figures may differ between reports, even within the same district, and this can be referred to the territorial audit that would reveal places of errors and faults, as well as the continuous follow up to identify undistinguished bodies whenever they are identified.

VDC team pays tribute to all the collaborative activists who extended a helping hand to our center as well as to the families of the victims. We also thank the Field Observation Team whose members face daily dangers executing their duties in Syria in order to document the human rights violations committed there, complete the data, and claim the rights of the distressed families from the concerned bodies and organizations.
